

Brunel University London, UK | 2-5 September 2025

Call for papers

The 60th Universities' Power Engineering Conference (UPEC2025) invites researchers, practitioners, and students from around the world to submit their papers for consideration. The 2025 edition of this long-standing conference will be held at Brunel University London from the 2nd to the 5th September 2025.

Conference central theme: "Crossing Energy Boundaries: Multi-Vector Solutions for a Carbon-Neutral Transition". Papers are invited that address research aspects of multi-vector energy systems to boost efficiency and sustainability across electricity, heat, gas, and mobility sectors, driving the transition to a low-carbon future.

Important Dates:

• Paper Submission Deadline:

15th May 2025

• Notification of Acceptance:

30th June 2025 (rolling notification for early submissions)

• Registration starts:

15th March 2025

• Early bird registration:

18th July 2025

• Conference Dates:

2nd to 5th September 2025

UPEC 2025 will feature a diverse range of activities, including keynotes, plenary sessions, panels, industry exhibits, and research paper presentations. We welcome contributions that address the latest trends, emerging technologies, and innovative solutions for multi-vector systems, including but not limited to:

- **Smart grids and grid modernization**
- **Renewable energy integration**
- **Energy storage and management**
- **Power system stability and control**
- **Cybersecurity, grid protection and automation**
- **Power electronics and devices**
- **Microgrids, islanded systems and highly reliable networks**
- **IoT applications in power systems**
- **Sustainable and resilient energy systems**
- **Low carbon transportation and grid integration**
- **Energy communities**

Submission Instructions:

Please visit our conference website www.upec2025.com for detailed submission guidelines and to access the paper submission system. For any inquiries, contact us at info@upec2025.com.

We look forward to welcoming you in
London at UPEC2025
